

Transylvania County NC Pre-K Transportation Plan FY 2023-2024

Should transportation complications arise for a child enrolled in the NC Pre-K program in Transylvania County, staff will encourage the family to develop a plan. This may include reaching out to extended family members who may be able to assist with drop off and pick up. Teachers should emphasize connecting families not only with area resources, but with each other. This could include encouraging families to work together and carpool, or developing a carpool sign-up for families who can volunteer to assist those experiencing difficulties.
